acecube compact

Overview

acecube compact

Enhanced Design Features

Transportable & Portable

The AceCube Compact bunded fuel storage tank range is a transportable cube style tank and can be transported and lifted while full of fuel.

Maintenance

This intelligent double wall tank design provides extra protection and remains a competitive choice insuring users of maximum return on investment, it insures minimal amount of downtime and thus increases over long term ROI.

Dispensing & Accessibility

The AceCube Compact Tank comes equipped with a spacious equipment compartment that allows for the secure storage of electric pumps.

Unique Design Standard

The AceCube Compact Tank comes complete with a primary galvanized hatch lid and four galvanized stacking corners. The innovative design allows the primary hatch lid to open up to conveniently positioned fitting ports. It also comes complete with the distinctive AceCube bidirectional Forklift pocket design.

Durability

The Cube-style tank design allows for 360-degree tank viewing and inspection. A high-grade paint finish ensures longer durability when exposed to the elements.

Design Innovation

Take a look inside

The AceCube Compact tank range has been designed with Bi-directional forklift pockets for ease of manouveravblity on site. It comes with four stacking corners which also act as lifting devices.

There are conveniently positioned ports & fittings with a recessed equipment compartment area for the upfitting of various 12V Diesel electrical pumps. The tank range is ideal for quick connection to Generators and Pump sets.

Standard Features

Uniquely designed equipment compartment area to accommodate the fitting of various sized dispensing pumps.

Intergrated bi-directional forklift pocket base frame. Designed for ease of lifting and handling.

Space efficient design, easily stacks 3 high when empty and 2 high when full.

Model (ACC-900L/237G)

The AceCube Compact model ACC-900L is designed for the safe and secure transporting and storage of various industrial lubricants and hazardous liquids worldwide.
